Envision
YOUR HOME REFRESHED...

LET'S DISCUSS
THE BIG PICTURE

Define

How does your space relate to the way you want to live? You have ideas and questions about how to change your kitchen, bathroom or other living areas in your house. The KitchenVisions team will answer your questions, make suggestions and guide you through the renovation process, first by listening to your needs and the way you use your spaces. Next, we will discuss specifics like your home's value, a rough budget for your project and our fees. Our staff collaborates with you to determine the scope of services you need to complete your project. Once the project is defined, you will move on to the design phase.

"We believe the planning process is the foundation of any successful project" – Jodi Swartz

CREATING THE APPEARANCE YOU WANT WITH THE SOLUTIONS YOU NEED

Design

The design phase begins with a full measure of your space and proposed floor plan options. Then we will move on to detailed schematic drawings and 3D perspectives. Finally, our staff will assist you with your selections of materials, fixtures and finishes. The KitchenVisions team will present a variety of design choices and related costs, estimated schedules and product proposals, and help you in the decision-making process. We can be as hands-on as you need us to be. By the end of the design phase, you will have a complete set of custom design documents that are ready for the next phase: delivery.

"The role of the designer is that of a good, thoughtful host, anticipating the needs of his guests."

– Charles Eames

A PROVEN TRACK RECORD FOR
AWARD-WINNING PROJECTS

Deliver

It will be our pleasure to introduce you to one of our trusted general contractors. They will arrange the team members you need: architect (if new build), structural engineer, finish carpenter, and subcontractors (plumbers, electricians, security/AV, painters and more). The KitchenVisions team serves as your project coordinator and we maintain our presence on-site throughout the project to ensure the integrity of the design. Our staff is available to answer questions for clients, contractors and subcontractors until the final walk-through. We work with companies that offer the same attention to quality and detail, and dedicated customer service that we provide. Your project will be completed with the utmost care and professionalism, to your ultimate satisfaction.

MORE ABOUT

KitchenVisions

Every project is unique because each family's taste and needs are unique. Whether you are looking to add spaces or optimize the space you have, the KitchenVisions team will work with you to make it happen. We bring a variety of skills and experience to every job with Certified Kitchen and Bathroom Designers / Remodelers and Universal Design specialists on our team. Our working design studio in Natick features an array of semi-custom, semi-stock and custom cabinetry samples as well as hardware displays, multiple countertop options and tile samples.

Founded by Jodi Swartz in 2011, KitchenVisions serves a niche between high-end design/build firms and big box home improvement centers. We work with multiple contractors as their design partner, providing inviting elements and

thorough project coordination. The results have won multiple accolades and awards.

A member of the National Kitchen and Bath Association (NKBA), Eastern Massachusetts Chapter of the National Association of the Remodeling Industry (EM NARI), Needham-Newton Chamber of Commerce and several BNI associations, KitchenVisions staff are active participants in these organizations. We serve on committees and panels, offering our insight and expertise.

We invite you to visit www.kitchenvisions.com and houzz.com/pro/kitchenvisions to read more about our projects, testimonials and awards. Learn how we can Define, Design and Deliver your timeless and extraordinary space.

KIND WORDS

From Clients

Jodi Swartz helped us redesign and renovate our kitchen, pantry, and half-bath/laundry area, and she really came up with creative solutions that we would have never thought of on our own. She is wonderful at providing her professional design sense and expertise in a thoughtful and diplomatic way. She also has great knowledge of pricing of various materials which helps inform her design advice. I highly recommend her!

– Susan S

Jodi and her team were a pleasure to work with. They listened to our needs, and came up with a great design that was better than we realized was possible for the space. Our old kitchen was poorly laid out dark space, and Jodi and her team transformed it into a bright, functional and beautiful area for our family. She worked seamlessly with our contractor and the timing of the project and cost were exactly as laid out.

– Stephanie C.
